

AeroControlex Turbine Case Cooling Cable Overhaul Kits for the PW4000

Now Available from Aviall!

AeroControlex, the global leader in designing and manufacturing engine control cables has developed all-inclusive overhaul kits for their most popular turbine-case-cooling (TCC) control applications. Airlines and MRO shops alike have requested a labor-saving OEM approved overhaul kit that addresses all the CMM parts requirements for control cable overhauls.

Turbine Case Cooling (TCC)

Cage Code: 81833
ATA: 76

Turbine Case Cooling Control

BILL OF MATERIALS

Kit P/N: 1609450-002
Repair Overhaul Kit

Part Number	Description	Quantity
1600279-001	Rod End: w/bearing	1
1600267-001	Ball Joint	1
M62290-4	Jam Nut	1
M62290-6	Jam Nut	1
1600273-002	Seal Nut	1

BILL OF MATERIALS

Kit P/N: 1609460-001
Repair Overhaul Kit

Part Number	Description	Quantity
1600279-001	Rod End: w/bearing	1
1600267-001	Ball Joint	1
M62290-4	Jam Nut	1
M62290-6	Jam Nut	1
1600273-002	Seal Nut	1

Turbine Case Cooling Control

Platform: PW4000
AeroControlex Top Assembly P/N: 1605140-002
Engine OEM Part Number: 59T756
CMM: 75-24-13

Part Number	Description
1609450-002	Repair Overhaul Kit for 1605140-002
1609460-001	Repair Overhaul Kit for 1606130-001
