

BOEING DISTRIBUTION – GENERAL TERMS OF PURCHASE

1. FORMATION OF CONTRACT

- a. This proposed purchase contract, which incorporates by reference these General Provisions and all other terms and conditions set forth in this proposed purchase contract (collectively, "Contract"), is Buyer's offer to purchase the goods and any related services and/or other deliverables (collectively, the "Items") described in this offer. Acceptance is strictly limited to the terms and conditions in this offer. Unless specifically agreed to in writing by Buyer's Authorized Procurement Representative, Buyer objects to, and is not bound by, any term or condition that differs from or adds to this offer. Seller's commencement of performance or acceptance of this Contract in any manner shall conclusively evidence acceptance of this Contract as written. Seller's provision of Items shall be governed solely by this Contract. Buyer and Seller are referred to herein as a "Party" or collectively as the "Parties".
- b. Except as authorized herein, no amendment or modification of this Contract shall bind either Party unless it is in writing and is signed by the authorized representatives of the Parties.

2. SCHEDULE

- a. Time is and shall remain of the essence in this Contract and Seller shall strictly adhere to the shipment or delivery schedules specified in this Contract. Failure to deliver in accordance with such schedules, if unexcused, shall constitute a material breach of this Contract and all such Items will be non-conforming for purposes of this Contract. In the event of any anticipated or actual delay, including but not limited to delays attributed to labor disputes, Seller shall: (i) promptly notify Buyer in writing of the reasons for the delay and the actions being taken to overcome or minimize the delay; (ii) provide Buyer with a written recovery schedule; and (iii) if requested by Buyer, ship via air or other expedited routing, at no additional cost to Buyer, to avoid or minimize delay to the maximum extent possible.
- b. Seller shall not deliver Items prior to the scheduled delivery dates unless authorized in writing by Buyer.
- c. Buyer may, at no additional cost, retain Items furnished in excess of the specified quantity or in excess of any allowable overage unless, within 45 days of shipment, Seller requests return of such excess. In the event of such request, Seller shall reimburse Buyer for reasonable costs associated with storage and return of the excess.

3. PACKING AND SHIPPING

- a. Seller shall pack the Items to prevent damage, foreign object debris/damage ("FOD"), and deterioration. FOD creating packing materials such as vermiculite or packing peanuts are prohibited for shipment(s) against this Contract. Hose ends or exposed connectors on assemblies shall be capped. Parts shall be packaged in quantities specified in this Contract with identification to include Part Number, Manufacturer CAGE code, Manufacturer name, Manufacturer lot or batch or serial number(s) – i.e., if package requirement is 25 parts per pack, there shall be 25 parts in each package. Regardless of transportation mode, all Items shall be suitably packed and properly marked (including notice of hazardous substances) or otherwise prepared for shipment so as to secure the lowest transportation rates and to meet carrier's requirements (reference ATA-300). When shipping requires multiple containers, each container shall be marked externally with appropriate box number (for example, 1 of x, 2 of x, ... x of x) and required traceability documents shall be placed inside of box 1 on top of Items. No charge will be allowed for packing, crating or carriage unless stated in this Contract. Unless otherwise authorized by Buyer in writing (i) all surface shipments shall be declared at the lowest release valuation allowed by the carrier and (ii) domestic and international expedited air shipments shall be waived. If Buyer has agreed to pay for freight charges (e.g. Collect), the Seller shall ship by the carrier and service level designated by Buyer on this Contract. If not, Seller shall pay all costs of shipping.
- b. Risk of loss for the Items purchased hereunder shall be borne by Seller until the Items are delivered FCA (Incoterms® 2020) at the point specified in this Contract or, if no point is given, until delivery to Buyer, at Buyer's facility.
- c. Items that contain Electrostatic Discharge Sensitive Devices must be handled, packaged, marked, and labeled in accordance with ANSI/ESD20.20 or MIL-STS-1686.
- d. HAZMAT Items must be packaged, marked and labeled in accordance with applicable federal and international regulations, e.g. 49 CFR, ICAO, and IMO. Seller is responsible for handling and disposal fees for HAZMAT Items received damaged resulting in the Item being scrapped by the Buyer.
- e. Seller agrees to drop-ship Items to Buyer's customers at the request of Buyer. In such event, title to and risk of loss for the Items purchased hereunder shall be borne by Seller until the Items are delivered FCA (Incoterms® 2020) to Buyer's customer, at the Seller location. For drop-ship Items, the documentation specified in Section 12 of this Contract shall be delivered with the Items to the Buyer's customer.
- f. All Items, unless exempt from Section 304, Tariff Act of 1930 as amended (19 U.S.C. 1304), shall be marked in a conspicuous place as legibly, indelibly, and permanently as the nature of the Item (or container) will permit with the English name of the country of origin of the Item. Packages of Items shall be marked with the name of the country of origin. Some examples of marking the country of origin are: "Made in France", "Made in Germany" and "Made in Italy." Abbreviations or spelling variants may be used provided they unmistakably identify the country of origin to any person; however, the use of the full English name is recommended. The use of the two letter International Standards Organization ("ISO") country abbreviation is not permitted.
- g. A copy of the shipping paperwork will be forwarded to Buyer's purchasing agent before shipment.

4. QUALITY CONTROL AND QUALITY MANAGEMENT SYSTEM REQUIREMENTS

- a. Quality Control/Quality Management System: Seller shall establish and maintain a quality system acceptable to Buyer for the Items purchased under this Contract. For Sellers of hardware Items that will become part of an aviation system, AS9100 for manufacturers of Items or AS9120 for distributors of Items is required and must be demonstrated through third-party certification or external audit. For maintenance, repair, and overhaul activity, certification by the cognizant civil aviation authority ("CAA") is required. AS9110 certification is not a substitution for local CAA approvals. Where personnel training certification/licensing is required for service contracts such as an A&P license or NDT certifications, certification documents shall be made available for review within 3 working days of Buyer's written request. When third party certification(s) are required, Seller shall notify Buyer within 5 working days of any changes to certification(s). Seller shall permit Buyer to review procedures, practices, processes, and related documents to determine such acceptability, if requested.
- b. Quality Surveys: The Seller shall provide a response to any quality surveys provided by Buyer via email as directed by Buyer within 30 days of request. Buyer will have the right to suspend invoice payments in the event of a failure to timely respond to such requests. Seller shall have a continuing obligation to promptly notify Buyer of any violation of or deviation from Seller's approved inspection/quality control system and to advise Buyer of the quantity and specific identity of any Items delivered to Buyer during the period of any such violation or deviation.
- c. Record Retention: Seller is responsible for maintaining all records required to document Seller's manufacturer's certifications and configuration statuses including inspection data such as First Article Inspection reports. Records must be maintained for the length of time required by the relevant authority. If the relevant authority provides no time frame, the documents related to Items that will become part of an aircraft must be maintained for a minimum of 10 years after the contract completion and confirmation by the Buyer prior to destruction of any records related to this Contract. Record retention for Items that will not become part of an aircraft is 7 years.
- d. FOD Program: Seller shall maintain a FOD prevention program compliant with AS9146™, or as otherwise approved in writing by Buyer.
- e. Design & Development/Special Processes: Unless otherwise specifically stated in the related purchase order, Buyer seeks no involvement in product special requirements, critical items or key characteristics or involvement in Seller's design and development process. Unless otherwise specifically requested in the related purchase order, Buyer has no requirement for test specimens. When special processes are used by Seller, Seller shall maintain a system for validating processes performed internally or if external providers will be performing special processing, unless otherwise directed by Buyer, Seller shall use (i) an organization certified by NADCAP (see <https://www.eauditnet.com/>) (ii) a Boeing approved vendor listed at <http://active.boeing.com/doingbiz/d14426> or (iii) obtain written approval from Buyer.
- f. Seller shall ensure that the requirements of this Contract are met and will verify product and shipping documents against requirements of this Contract before shipment.
- g. Root Cause and Corrective Action: The Seller shall respond to all requests for root cause and corrective action within 30 days of request. Buyer may submit such requests through the Online Aerospace Supplier Information System or OASIS for certified organizations if Seller does not respond within the time frame required by this Contract. Additionally, Buyer will have the right to suspend all orders.

5. CHANGES

- a. Buyer may, without notice to any sureties and in writing, make changes in any one or more of the following: (i) drawings, designs, specifications, where the Items to be furnished are to be specially manufactured for the Buyer in accordance therewith; (ii) shipment or packing methods; (iii) place or time of inspection, delivery, or acceptance; (iv) reasonable adjustments in quantities or delivery schedules or both; (v) the amount of any Buyer furnished property; (vi) terms and conditions of this Contract required to meet Buyer's obligations under its customer prime contracts or subcontracts; and, if this Contract includes services, (vii) description of services to be performed; (viii) time of performance (e.g., hours of the day, days of the week, etc.); and (ix) place of performance. Seller shall comply promptly with such direction. Except for the rights granted to Buyer under this Article, a change pursuant to this Article shall not give rise to nor authorize any other modification of or amendment to the terms and conditions of this Contract.
- b. If such change increases or decreases the cost or time required to perform this Contract, Buyer and Seller shall negotiate an equitable adjustment in the price or schedule, or both, to reflect the increase or decrease. Buyer shall modify this Contract in writing accordingly. Unless otherwise agreed in writing, Seller must assert any claim for adjustment to Buyer's Authorized Procurement Representative in writing within 20 days and deliver a fully supported proposal to Buyer's Authorized Procurement Representative within 60 days, after Seller's receipt of such direction. Buyer may, at its sole discretion, consider any claim regardless of when asserted. If Seller's proposal includes the cost of property made obsolete or excess by the change, Buyer may direct the disposition of the property. Seller has the burden to support the amount of Seller's claim for equitable adjustment. Further, Buyer shall have the right to verify the amount of Seller's claim. Failure of the Parties to agree upon any adjustment shall not excuse Seller from performing in accordance with Buyer's direction.

BOEING DISTRIBUTION – GENERAL TERMS OF PURCHASE

- c. If Seller considers that Buyer's conduct constitutes a change, Seller shall notify Buyer's Authorized Procurement Representative promptly in writing as to the nature of such conduct and its effect upon Seller's performance. 6. **INSPECTION, ACCEPTANCE, REJECTION AND OTHER REMEDIES FOR NONCONFORMANCE**

Seller shall cooperate with any such United States Government-directed or Buyer-directed inspection, surveillance, test or review without additional charge to Buyer. Nothing in this Contract shall be interpreted to limit United States Government access to Seller's facilities pursuant to law or regulation.
- f. Reviews, including program reviews, requirements consumption reviews, and production readiness assessments, shall be held at Seller's, Buyer's or Buyer's customers' facilities, as requested by Buyer. The topics of these reviews shall be specified by Buyer and may include Seller's or Seller's sub-tier suppliers' current and future capacity and capabilities, raw material and component part status, production status, Buyer-supplied components, inventory, Buyer's requirements, manufacturing plans, first article plans, changes, forecasts, disaster preparedness, and other issues pertinent to Seller's performance under this Contract.

Buyer reserves the right of final approval of Items or services including related procedures, processes, and equipment.
- i. Seller shall not deliver substitute, superseded or alternate Items without the prior written approval of Buyer.
